

## Hospitals and Institutions Treasure Valley Sub Committee Chairperson Report January 2012

This is our first Treasure Valley Subcommittee meeting of 2012 and I want to welcome all of you for attending. My goal as your Chairperson is to assist you in any way I can. The Volunteer meeting attendance has been awesome, please keep up the enthusiasm. We need all of the help we can get. I am hoping to accomplish a lot during this rotation. One of my goals is to recruit people to facilitate meetings in our Correctional Institutions. We have great opportunities in the Treasure Valley. We have 4 Correctional Institutions within easy driving distance from Boise, not counting the jails. At just one meeting a week in each institution we have an opportunity to facilitate over 16+ meetings a month. This does not seem like much but in reality it is huge. This requires a lot of volunteers to hold an AA meeting in each institution once a week. 2 people per institution cannot get this done. We need help and we need volunteers.

My other goals are much simpler. Revising the guidelines and composing a schedule of the meetings we facilitate both Correction and Treatment Center meetings.

Thank you all for everything you have been doing since we started this rotation. Everyone has been awesome! I was hoping to hit the ground running and that is exactly what you guys have been doing. Mike M. the Corrections chair has taken over where Mike K. left off and has been able to provide us with great news and his organization and ambition will serve the Corrections side well. Gigi's enthusiasm for the Treatment side will be a great asset. Michelle and Barbara have taken the Literature to heart and have been a great help. Chuck is doing everything he can to take care of the Answering Service, and Tinallee has grabbed a hold of BTG and is doing an awesome. Linda Mac is doing a great job Chairing the Volunteer Meeting and all of the facilitators we have had the honor to meet are great! Thank you all! This is awesome.

With love, your trusted servant
